

Onboarding is easy

We want adding Pivt to your processes be simple. Here is what we suggest:

Step 1

Review Pivt's demo & reach out to sales@pivtapp.com or your RMC account manager with any questions

Step 2

Notify your account manager at your RMC that you'd like to add Pivt for your assignees

Step 3

If your organization has decided to add a Private Pivt Community, Pivt's client service team will be in touch to set up your community

Step 4

RMC will handle all billing & operations

Step 5

Your assignees will be provided Pivt accounts at the time of their file authorization
